

Industrial After Burner

Smokeless Roasting

Industrial Afterburner is a heavy duty direct fired thermal oxidizer to allow roasting without smoke for large - batches coffee roasters.

Standard features

- Heavy duty construction and high performance.
- Efficient gas consumption
- Safe and stable CE approved gas burner
- Low NOx low Carbone monoxide emission
- Large inspection lens for flame monitoring
- Most compact in size, footprint saver
- Flanged chamber for easy access for internal servicing
- Futuristic and modern design.
- Shielded for heat dispersion.

Technical Specifications

Materials:

Carbon steel/Stainless steel/
Aluminum/Ceramic insulation up to 1200°C

General Dimensions:

105(w) x 114 (d) x 52 (h) Exhaust cm
41"(w) x 45"(d) x 20"(h) Exhaust

Weight:

90 kg (198 lb)

Electrical specifications:

Single phase 220-240V 300W
50/60hz

Technology & Features

Green Product

Low Energy Consumption

Smoke Free
