

Everything you need from your industrial roaster

The Ghibli R90 ensures efficiency, reliability, and consistency. Aiming to maximize your coffee's flavor and aroma while optimizing extractable properties. This advanced roaster uses our in-house exclusive technology to save energy and reduce your gas emissions. We made the perfect roaster for your commercial coffee business needs.

Vortex TO4 drum

Achieve the optimal roasting quality

Our aerodynamic drum utilizes a high-velocity vortex air stream and minimizes air intake, energy consumption, and pollution. Ultimately, we can create more aroma, achieve density development, and preserve essential coffee qualities.

Roast smokeless

We offer advanced **smoke-free** solution **perfectly engineered** to connect with the Ghibli R90 **seamlessly**.

Choose your preferred solution

Afterburner –

Efficiently removes all roasting smoke and odors.

The Afterburner is a reliable pollution eliminator that reduces CO, NOx, SOx, and other emissions effectively.

Features & Technology

Ambient autonomy

Optimal roasting conditions regardless of surroundings.

Advanced software

Simplified operation and precise control on every feature.

VoluMax cooling

Only 3-5 minutes cooling for a full 90kg batch.

Pre-mix gas burner

Significant gas savings and low NOx, and CO emissions.

Operator safety

Best user protection and safest roasting environment.

Batch Capacity

30-90 kg

Hourly output

Approx. 270 kg

Dimensions & Weight

269(w) X 333(d) X 281(h) cm

1500 kg

Quality and safety compliance

CE, RoHS, EMC
